

ICM442

3-Phase Motor Protection

APPLICATIONS:

APPLIANCE | ELECTRICAL | HVAC/R | MARINE | POOL & SPA | RV

REPLACES

■ N/A

FEATURES

- Low cost, rugged motor temperature monitoring device designed to shut off power to the motor before thermal damage occurs
- ▼ Protects against over temperature in motor windings
- ▼ Control duty SPST relay layout: 10 amp, 250 VAC
- Uses up to four (4) 100 Ohm thermistors in series

SPECIFICATIONS

■ **Voltage:** 200-575 VAC

■ Frequency: 50/60 Hz

■ **Voltage unbalance:** Adjustable 2-25%

■ **Control:** 115-277 VAC

■ Control duty SPST relay layout: 10 amps, 250 VAC

■ **Thermistors:** Four (4) 100Ω thermistors in series

■ **Relay Rating:** 250 VAC at 10 amps
